ance Notes on Codes and Abbreviations" appearing at the begin-  
ning of each regular issue of the PCT Gazette.

(54) Title: SYSTEM FOR HANDLING A PERSON AND METHOD THEREFOR

(57) Abstract: The invention relates to a method of handling a person, such as lifting or moving the person from a first position to another, with a handling system including one or more support sheets initially positioned under the person. The method comprising the following steps: winding the one or more support sheets on at least two rollers to a position in close proximity of the person's body, positioning one or more frames above said person and said at least two rollers, connection said one or more frames to said at least two rollers, and handling the person by performing a lift in at least one of said one or more frames. The invention also relates to a handling system for lifting or moving a person from a first position to another.
